Ice Cream, Yogurt and more!

General Terms

Ice Cream

American Ice Cream has more milk and less cream than most French and Italian ice creams and except for frozen custard, is usually made without eggs. Besides milk (fresh, condensed or dry) and cream, commercial American ice cream contains sugar, plus flavorings, stabilizers and plenty of air. Most ice cream types should be at least 5% air or they'll be rock hard. The government allows air to constitute up to 50% of ice cream's total volume.

Frozen Custard

Ice cream made with an egg custard base (at least 1.4% egg yolks), which gives the dessert body and silkiness. Must contain a minimum of 10% milk fat and weigh not less than 4.5 pounds per gallon

Milk Shake

A blended and sometimes sweetened beverage made from fresh fruit (fruit smoothie) and in special cases can contain chocolate or peanut butter. In addition to fruit, many smoothies include crushed ice, frozen fruit, honey or contain syrup and ice ingredients.

Frozen Yogurt

A mostly commercial product, containing basically the same ingredients as ice cream but with yogurt added and a lower percentage of butterfat.

Sorbet

Also known in the United States as water ice, sorbet ins made without any dairy products whatsoever, though egg whites are sometimes incorporated to give it body.

Smoothie

A blended and sometimes sweetened beverage made from fresh fruit (fruit smoothie) and in special cases can contain chocolate or peanut butter. In addition to fruit, many smoothies include crushed ice, frozen fruit, honey or contain syrup and ice ingredients.

Slush

A Icy Freeze made with neutral slush base (sweetened or unsweetened and an added varieties of flavors.

Ice Cream, Yogurt and more!

General Terms

Cake Cones

Is a dry, cone shaped pastry, usually made of wafer similar in texture to a waffle, which enables ice cream to be held in the hand wand eaten without a bowl or spoon. This come comes in may sizes to suit your needs.

Waffle Cones

Waffle cones are made with a high grade blend of cake and pastry flour and dark brown sugar brings a sweeter taste (molasses occurs naturally in brown sugar, but artificially adding molasses produces a burnt/bitter aftertaste) and shortening (the more shortening the cone has will reduce the shelf life and cause the cone to lose freshness, taste and smell. Also shortening increases fragility).

Waffle Bowls

Made with the same formula as the waffle cone with a unique bowl design for easier serving for the customer.

Pretzel Cone

Sugar Cone

Also Available

Dispenser Pack

Between 100 and 132 cones or cups sealed in a poly bag and packed in a box designed to fit most counter top dispensers.

Bulk Pack

Cones and cups stacked in layers and enclosed in a poly bag. Self supporting inner packing designed to permit dispensing right from the box.

Sleeve Pack

Between 20 and 25 cones or cups to a row. Each row is wrapped in machine sealed film. The machine sealed film provides a tamper evident pack, extends shelf life and that just baked fresh taste. This pack is designed for use with freezer top, side mount, tube dispensers or our new countertop.

Ice Cream, Yogurt and more!

Product Handling

Hard Ice Cream & Soft Serve Mix

While in storage soft serve ice cream should be kept at 35 degrees and hard ice cream should be held at -10 degrees

Soft service ice cream has dating of 7-10 days keep an eye on your rotation.

For service hard ice cream cabinet temperature should be raised to +10 degrees for easier scooping.

Butterscotch & Caramel Topping

Butterscotch and Caramel Fudge Toppings have their own distinct flavor and color.

They have exceptional consistency and a creamy flavor profile.

They can be served at room temperature or warmed to 90-130F

Chocolate Syrup

Choc. syrup is ready to use (by Ladle or pump)

Can be diluted with water to get right consistency. (If too thick under refrigeration)

Should be refrigerated at 35 degrees after opening.

Peanut & Walnut Topping

Peanut Butter can be used right out of the can as a topping, variegate or background flavor.

Walnuts in Syrup are concentrated and should be cut one to one with Simple Syrup.

Marshmallow Topping

Creamy white Marshmallow Toppings come in several convenient packages in RTU or Concentrated.

Marshmallow products are concentrated and can be cut with water or Simple Syrup to coat sundaes beautifully.

Fruit Topping

Should be diluted 1 to 1 with Simple Syrup. Unless toppings are ready to use.)

Stored at room temp. until opened. Once opened should be sealed and put in cooler at about 35 degrees.

Flavors - Walnut, Black Raspberry, Pineapple, Cherry, Carmel, Butterscotch, Blueberry, Strawberry, Black Raspberry.

Ice Cream, Yogurt and more!

Product Handling

Cones

Always store in a cool dry area.

When opened keep covered until needed.

End of year any unopened cases should be wrapped in plastic bag and stored as high as possible in cool dry area. Open cases will not last until the next season.

Hot Fudge

Before opening soak in hot water for 1 Hour.(If busy this saves time.

Served in warmer at 140 degrees.

Check water level in warmer, fudge must be steam heated or it will scorch.

Turn off over night.

Will get crust over top (This protects from mold & bacteria) this will dissolve when reheated !

Can be diluted with 1 - 2 oz. of water for right consistency.

Refrigeration is not necessary.

If serving hot butterscotch or caramel follow same directions.

Dips

The Top Kote enrobing icing and Waffle Cone Dip are used for dipping Belgian waffle cones before adding ice cream.

Waffle Cone Dips should be heated to 140F for a smooth coating.

Before opening soak in hot water for 1/2 Hour. Served in warmer at 105 to 110 degrees. Turn off overnight. Cones should not be held in dip for more than a 2 count. Dips will separate , stir often.

Fun Facts

- The ice cream cone is one of the most environmentally friendly forms of packaging.
- More ice cream is sold on Sunday's than any other day of the week.
- The most popular flavor by far is vanilla, followed by Chocolate, Strawberry and Neapolitan.
- The biggest ice cream sundae ever made was 12 feet high! It took 4,667 gallons of ice cream and 7,00 pounds of toppings
- The average number of licks to polish off a single scoop ice cream cone is approximately 50.
- Britain is Europe's third biggest consumer of ice cream at around 8 liters per person. This amount of indulging is dwarfed by the American average of 21 liters
